HYDRAULIC TOOLS

Custom Hydraulic Manifold Design & Manufacturing

At Hydraulic Tools, we offer a complete solution for hydraulic manifold systems from concept to installation. Our services include hydraulic circuit design, 3D manifold modeling, and precision CNC manufacturing. We specialize in both SUN cavities and widely-used SAE Common cavities compatible with major hydraulic brands. For client-specific needs, we also source and machine with custom cavity tooling.

We supply and install high-quality cartridge valves, with a primary focus on SUN Hydraulics. Our offering also includes trusted brands like Hydac, Parker, Eaton, HydraForce, Danfoss, Vickers, and Comatrol ensuring performance, reliability, and compatibility across applications.

Discover how our partners' products can elevate your operations with unmatched reliability and efficiency.
